

# Dr. Michael Shermer

## Why Darwin Matters

### The Case Against Intelligent Design

(talk & book signing)

Michael Shermer is the founder and executive director of the Skeptic Society and publisher of *SKEPTIC* magazine. His most recent book *Why Darwin Matters* thoughtfully explains why intelligent design is both bad science and poor religion, how a wealth of scientific data from varied fields support evolution, and why religion and science need not be in conflict.

Co-sponsored with the Alliance for Science.
